devguhts@gmail.com | linkedin.com/in/pedro-guths | github.com/guthspedro10 | Porto Alegre, RS, Brazil

SUMMARY

Biomedical Informatics undergraduate student at UFCSPA specializing in backend development, systems integration, and health information processing. Proficient in Java, Spring Boot and SQL. Adept at transforming clinical and biological specifications into scalable, well-structured software solutions for healthcare challenges.

EXPERIENCE

Levino

Aug. 2025 – Jul. 2026

Software Developer

Porto Alegre, RS, Brazil

Volunteer undergraduate academic project developed as part of an academicindustry partnership between the Federal University of Health Sciences of Porto Alegre (UFCSPA) and Levino, focused on developing a software system for the analysis of athletes blood test data, supporting the identification of potential injury risk based on biomarkers.

- Developed interactive dashboards and data visualizations for clinical metrics using React and Chart.js.
- Processed and structured laboratory and biomarker data, ensuring clean integration into the system.
- Developed and integrated backend REST APIs using Node.js to connect client-side components with a MongoDB database.
- Modeled data workflows to enable data-driven insights for athletic performance monitoring and injury prevention.
- Collaborated in an agile team of 5+ developers and domain experts across bi-weekly sprints to align biomedical rules with system architecture.
- Currently part of the development team, contributing to the project when needed.

EDUCATION

Federal University of Health Sciences of Porto Alegre (UFCSPA)

2025 – 2029

Bachelor's Degree in Biomedical Informatics

Porto Alegre, RS, Brazil

- Relevant Coursework: Object-Oriented Programming, Data Structures, Algorithms, Databases, Computer Systems.
- Upcoming Coursework: Pattern Recognition, Medical Imaging, AI in Healthcare, Computational Molecular Biology, Genomics.

CERTIFICATIONS

Duolingo English Test

- Achieved Score 125/160 (CEFR B2 Level - Upper Intermediate Proficiency).
- Verify at: <https://drive.google.com/file/d/1-54Wa9pcZ0puV4KtiOPxkC2JhzwFMkIK/view>

SKILLS

Languages & Frameworks: Java | Spring Boot | SQL

Developer Tools: Postman | Git | GitHub | Jira.
